# KAREEN UJJAINIYA

Frontend Developer

Samrat Ashok Technological Institute • 2024 Pass out

Projects

CODESYNC

•CodeSync is a web application that serves as a simplified clone of the CodePen editor.
•It provides users with the ability to write and preview HTML, CSS, and JavaScript code in real-time.
•The project features user authentication, including login and signup functionality. The application is built using the React library for thefrontend, Nodejs, Express for the backend, and MongoDB as the database.
Skills Developed: React.js, NodeJs, ExpressJs, MongoDB

WEATHER APPLICATION

•The application is built using HTML, CSS, and JavaScript that uses openweather API to display current weather conditions for a specified location.
•The application is designed to request the user's permission to access their current location and then display the current weather for that location in a user-friendly format.
•If the user declines to share their location, they can also manually enter a location to view the weather for that area.

Skills Developed: HTML, CSS, Javascript

RAZORPAY CLONE

•The Razorpay clone project created using Tailwind CSS is a web application designed to replicate the user intrface of Razorpay website.
•This project was created using only the front-end technologies HTML and Tailwind CSS.
•The application is designed to be visually appealing and easy to navigate for users.

Skills Developed: Tailwind, CSS, HTML

Achievements/ Extracurricular Activities

•4 star at HackerRank problem solving.
•Actively participating in hackathons and coding competitions to enhance problem-solving and programming skills.
•Achieved the second-highest academic standing in the first year of college.
•Achieved the third prize in the college drama competition.

Skills

C/C++ | HTML | Talwind CSS | Javascript | React.js | OOPs | Github

Education

Samrat Ashok Technological Institute, SATI Campus, Vidisha, Madhya Pradesh
B.Tech, Computer Science Engineering (CSE) | 8.7 CGPA

2020 - 2024

St. Joseph's Convent School, Itarsi Class XII | 87.8%
2019-2020

St. Joseph's Convent School, Itarsi Class X | 90.8%
2017 - 2018

Training

CODEHELP | MERN Stack
- Developed and deployed multiple frontend projects.
- Utilized HTML, CSS (including Tailwind CSS), JavaScript, and React for frontend development.
- Actively engaged in learning backend development, focusing on the MERN stack.

Certifications & Courses

Complete Front End Web Development
May 2023 | Certificate Link

Data Structures and Algorithms Master Course
August 2023 | Certificate Link
